Help Spread the Word

Harrisburg Township Park District is excited to announce the upcoming use of Social Media. The purpose for use of social media sites is to obtain and disseminate information useful to and about the Park District. The Park District's primary and predominant Internet presence is the Park District website (<https://www.harrisburgpark.net>). The Park District's social media sites are intended to supplement its website and a Park District social media site is not a public forum.

Social media will enable the Park District to instantly connect with residents, inform them about upcoming events and activities, and boost program registrations and event attendance. It provides a direct channel for program promotion and provide updates regarding public health and safety at the parks. Help us spread the word and share our new social media page with everyone in the community.
